Over the past decade, the American Alliance of Museums (AAM) has promoted accessible methods in museum operations from collections management to exhibition design. The UM Museum Studies Program is pleased to share in this important conversation regarding audience engagement with this session on accessibility in museum programming and interpretation. Our panelists draw on their experiences and research in developing meaningful opportunities for all visitors to encounter the wonder and enrichment of museums. Join us and explore new strategies for inclusive practice.

\* This virtual panel discussion will be presented online via Zoom and will feature real time captioning. If you would like to request an ASL interpreter, please email [ummsp@umich.edu](mailto:ummsp@umich.edu) by November 10.
